

Rough Draft

Arkansas TBI Resource Guide Please help us fill the gaps.

Your help is needed to identify other service providers in your areas that are not yet included in this draft document. Please review the guide and identify additional services that need to be included. Of particular interest for inclusion are local support groups, both for the individual with TBI and for the Caregiver.

Email your additions and corrections to the Injury Prevention and Control Branch, Traumatic Brain Injury Program to Bettye.Watts@arkansas.gov or complete and return the form to the Arkansas Department of Health (ADH) in the attached stamped, self-addressed envelope. The comment period ends March 31, 2009.

The guide includes services that meet State of Arkansas standards of licensure/ Certification. Information on county services was compiled from records of the approving agencies, and has been verified for inclusion in the guide. Information and services described in the summaries were gathered from organizations' on-line URLs (universal resource locator).

The guide will be available on-line at www.healthyarkansas.com/reports and updated regularly. Printed versions of the resource manual may be requested from the ADH TBI Program Coordinator at 501-280-4923.

Thanks in advance for your help with this project.
